## Hey There!

My name is Susan Hobbs. I'm a waitress from NYC. I will admit I fell into a state of depression. Covid 19 hit and shut down the whole state as well as the restaurant I worked at. I had to file for unemployment benefits and it took weeks to get approved. Out of desperation I decided to look into a few work-from-home businesses that I had previously received in the mail. Out of 3 companies there was only 1 that offered telephone support ..so I called and actually spoke to someone on the phone. That company is LAV Direct.

LAV Direct is a diamond in the rough that sells high-demand items at wholesale prices. The great thing is that, for a small fee, you're able to become an Affiliate and earn money once you choose one of the "Done-For-You" ad campaigns. LAV Direct provides multiple options for marketing and they have a **MONEY BACK GUARANTEE!**

For my first marketing campaign I chose for the company to mail 500 letters. From those 500 letters I got 19 people to join...almost a 4% response! In just 6 short weeks, I had over 100 people join my team. For only \$39 per month for a hands off business and less than \$1 per piece for ad campaigns, AND a MONEY-BACK GUARANTEE you can see why it is so easy to build your team LIGHTNING FAST!

In such a small amount of time I went from feeling anxious and depressed due to NYC and my job being shut down....to actually being able to write a letter explaining that I made over \$12,000 in 5 weeks! Of course individual results will vary, but LAV Direct has been a life saver for me!

I am introducing you to a system that is unlike anything you've ever seen before and it is simple and completely hands off! Here's how it works:

- You join by paying \$39
- Then you purchase the "Done-For-You" ad campaign. LAV's advertising campaigns are very affordable because they don't mark-up their advertising prices.
- Sit back and relax and let the company handle everything for you.

We are so sure you will make money that we will refund the amount you pay to advertise if you don't make a profit in 90 days! That is our promise to you - NO QUESTIONS ASKED!

LAV Direct is on track to be the next Amazon and guess what? LAV shares profits with their members forever (unlike Amazon). Did you know that Amazon earned \$2.54 Billion dollars in the first quarter of 2020? If Amazon distributed profits they could have sent 100,000 people checks in April 2020. Using LAV's model, Amazon could have enhanced the lives of 100,000 people during this pandemic... BUT.....Amazon doesn't share their profits – they keep it all to themselves. That does not help every day people. LAV's values are much different and that is what intrigued me about this company. They strongly believe in the power of sharing.
